Find a Use For the Appendix Will wonders never Will science ever rach its limit? Current events answer us. Now comes an English surgeon, who hitherto always considered a useless member of the human anato-

my. A news dispatch says:

What purports to be an important discovery in reference to the appendix is described by one of the surgeons of the West London Hospital, apparently showing that the dangerous, mys terious organ can greatly help a surgeon in treating diseases of the lower intestines. The difficulty of applying medicines in the lower intestines is overcome by using the appendix as a duct.

The operation begins exactly in the same manner as that for appendicitis but instead of removing the organ, the surgeon threads it through the various layers of muscle in the abdomina It is then opened and by a tube passed through it any necessary medicine can be applied directly to the mucous membrane of the lower intestine. The appendix, it is said, may safely be left open in this positionbecause the abdominal muscles protect it suf-

Now, therefore, all you people whose appendix is disturbing you hang onto it, because some day You may need it.

An Adventurous Correspondent Few newspapers in the United States are able to command the services of as brilliant a corps good illustration of its wise pola national reputation as a magnetic and resourceful news writer. And now he is preparing to clinch his reputation for originality and daring by trying to reach the north pole in an air-

Whatever mayb e the results of Mr. Wellman's daring attempt an airship and send the news of the voyage at once to THE CHI-CAGO RECORD-HERALD expedition is sure to be conducted by Mr. Wellman with the same cool courage and wholesouled enthusiasm that have made she has been visiting for some him an ideal newspaper corre-time. spondent.

Mr. Wellman wasborn in Mentor, Ohio, in 1858. At 14 he be- near Olmitz, were visiting with gan his newspaper experience, es the families of Richard Williams ly paper in the little town of Sut week. ton, Neb. In 1884 he became th' Washington correspond nt of the Chicago Herald for which paper he visited the West Indies in 1892 and located the landing place of Columbus, marking the spot with a huge stone monu-In 1894 he made his first dash for the pole, reaching the latitude of 81 degrees northeast of Spitzbergen. In 1898 he tried the same fascinating quest again, penetrating as far as Franz Josef Land. On both trips he had Wonderful success in discovering new islands and securing new scientific data which have been of great value to the American Geographical Society. His Noluminous writings for scienfitie periodicals and popular magazines have shown the same incisive thought and keen insight that have marked his journalistic work.

The great white czar gets a salary of \$25,000 a day, the sultan of Turkey \$18,000, the emper-or of Austria \$12,000, the kais-\$11,290, the king of Italy, \$7,200, the king of England \$6,-270, Leopold of Belgium \$1,700, poleon's salary was about \$15,000 erral of Kausas. a day. The president of France gets about \$617 a day.

Mr. Dana Trout of the Agronomy department of the state agricultural college was in the city last week visiting friends

Stephen L. Umberger, one of the wealthiest and best known farmers of this county, committed suicide by cutting his throat with a razor at his home early last Thursday morning. No cause for the deed can be found. Mr. Umberger was elected county commissioner from his district at the recent election on the Republican ticket and has always en a prominent worker in all public affairs.—Larned Tiller &

A Famous Newspaper Man. William E. Curtis, the famour prespondent of the Chicago Rec ord-Herald writes a two-column letter for his paper every day in has found a use for the appendix the year without intermission. Hipowers of sustained work are as great a marvel as his faculty of always making his matter inter-

Probably no other newspaper correspondent in the country is read so regularly and eagerly by so many thousands of men and women as Mr. Curtis. Mr. Curtis has traveled several times around the world, visiting every country under the sun, and writing a larg er number of brilliant and interesting letters of travel than were ever before produced by a single hand. Many of these have later been reprinted in book form \$100,000 by the state, creating a One of his latest expeditions for the Chicago Record-Herald was through Mexico, resulting in a se ries of letters as entertaining as This revolving fund will be hand wall and attaches it to the skin. those he wrote a few years ago from India, Turkey and the Holy Land. His forthcoming letters tal is drawn on which to run from Ireland, Russia and German the binding twine plant at the will rival in importance and interest any of his previuos contributions.

Beginning his career in Chicago as a reporter in 1872, Mr. Curtis rapidly rose to managing editor. He resigned that position to accept a government appointment as secretary of the South American commission. So brilliantly did he perform the duties this office that James G. Blaine, Secretary of State, placed him at the head of the Bureau of Ameri can Republics. At the world's of correspondents as The CHI- fair in Chicago he distinguished 'CAGO RECORD-HERALD.
